Queries vs. Contact Lists

Queries

Dynamic lists

Will change over time as contact data changes

Contact can qualify for multiple queries

Contact Lists

Static lists

Contact must be manually removed

Contact can be added to multiple contact lists

Three Types of Data

Profile Data

Traditional database profile, 1:1 relationship of attributes to contact, updated at varying frequency

Relational Data

Extension of the profile, 1:Many, Many:1, or Many:Many relationship, updated at varying frequency. Integration data (i.e. inventory, opportunity details)

Behavioral Data

Record of something that occurs, and that does not change. Email behaviors, web behaviors and Universal Behaviors for SMS and Mobile Push

Populating Behavioral Data

Captured Behavior: IBM Marketing Cloud Web Events

Newsletter - Complex

Newsletter - Moderate

With its focus on longer copy and image-free content areas, this is an ideal layout for B2B companies and their weekly or monthly round-ups of news, information and content. Also great for B2B lead nurture campaigns and B2C content-heavy newsletters.

The image is a screenshot of a web browser displaying the LESCO PolyPlus website. The browser's address bar shows the URL www.pages02.net/siteone/PolyPlus/. The website header includes the text "AVAILABLE AT SiteOne LANDSCAPE SUPPLY" on the left, "STORE LOCATOR" with a location pin icon in the center, and a green button labeled "FREE WHITE PAPER" on the right. The main visual is a large photograph of a lawnmower's rear wheels on a green lawn. Overlaid on this image is the text "LESCO" in a serif font and "POLY PLUS" in a large, bold, white sans-serif font. Below the main image, there is a section with the heading "HEALTHIER TURF. A STRONGER BUSINESS." followed by a paragraph of text: "Nitrogen is one of the key building blocks of plant nutrition. But this valuable nutrient is often overused—or not used to its full potential—in traditional fertilizers. By controlling the release of nitrogen, LESCO® PolyPlus Extended Release and PolyPlus Season Long fertilizers can help you promote a healthier greening response, use less labor and build a more successful business." At the bottom of this section is another green button labeled "FREE WHITE PAPER". To the right of the text is a video player with a play button icon, showing a stylized illustration of grass, soil with roots, a sun, and clouds.

Reports Defined

Trend Reports - Summary

A Trend Report is a combined report of all data from several mailings in the organization. "Trend Reports - Summary" provides at-a-glance performance trends and key metrics (for example, unique opens, clicks, and effective rates) for a series of selected mailings over a specific period of time. Using the provided filters, you can select as many

Metrics Explained

AOL Gross Clicks

The number of times contacts clicked a tracked hyperlink in an AOL mailing. Includes multiple clicks made by the same contact.

Introducing New Reports

Interactive Platform

Our new reports give you the unprecedented ability to interact with your data. With the new framework, you can now modify charts and data, choose metrics, and save your favorite views for future use. Better metrics means your performance reports are easier to understand. The new reports are available alongside your existing reports, so you still have all the great reports you're used to, and new reports, too!

Look What's New!

Create PDF

You can now convert any report to a PDF file, allowing easier viewing, printing, and saving.

Excel Add-in

The screenshot shows the Excel ribbon with the 'FILE' tab selected. Below the ribbon, the 'Excel Add-in' ribbon is visible, featuring several sections:

- Account:** Logout, Preferences
- Get Reporting Data:** By Org, By User, By Mailing
- Get Sent Mailings:** By Org, By User, By Contact Source
- Get Contact Sources:** Get Contact Sources
- Help and About:** About Add-in

The active cell is H3, and the formula bar is empty.
